Election/Restrictions

This application contains claims directed to the following patentably distinct species:

- | | |
|-------------|--|
| Species I | A fluid ejection device having a random predetermined intended distribution of nozzle sizes |
| Species II | A fluid ejection device having a uniform predetermined intended distribution of nozzle sizes |
| Species III | A fluid ejection device having a normal predetermined intended distribution of nozzle sizes |
| Species IV | A fluid ejection device having a binary predetermined intended distribution of nozzle sizes |

The species are independent or distinct because the species are mutually exclusive.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 12, 23, 31, and 36 generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 2861

Response to Amendment

Responsive to election/restriction filed on 1/25/2006.
